BABETTE COLLECTION

The new Babette collection definitely a transitional ensemble that uses as a center piece the tapered, cylindrical base as a starting point. Simplicity and elegance on trend are achieved by details in its band with carved applications that elevate its simple beauty.

The Campana buffet/server brings an element of natural earthy design which provides clean organic lines with a distressed black finish that conveys years of use at a farmhouse kitchen

White and crisp Jenn chairs, with exposed wood legs finished in black complete this collection in a symphony of carefully curated pieces. The finish of the Babette table is a warm grey that pairs perfectly with the weathered finish on the Campana. The fluffy white performance textile used on the chairs ensures a perfect contrast of dark and light throughout.
