

BARSTOOL PERRY

Details are abundant in the craftsmanship of our Perry stools which come in both counter and bar heights. Superb tone combination between the subtle color of the oak finish and the frame with elegant cream chosen for the leather. The wide stripes of leather woven into this frame are vegetally tanned, and thus cleaner for the environment while providing a very durable and comfortable seating experience for your grand room, kitchen or bar at home.

PRODUCT DESCRIPTION

Handcrafted in Peru.

In stock - Quick ship

Customization available.

Unlike the soft leather you are used to seeing on luxury leather goods such as high-end purses, vegetable tanned leathers are rustic, thick and very durable. For instance, consider this leather to be the type you would find in equestrian saddles and antique leather goods. Unlike chrome tanned leathers which have toxic properties, vegetable tanned products have less of an impact on our environment, eliminating much of the pollution caused by modern tanning methods. Every vegetable tanned leather produced is unique in its own way.
