

CALADA COLLECTION.

With the calada round dining table as the center feature of this collection, we have created a grouping that offers a traditional set up with hints of transitional aesthetics.

Eclectic elements are abundant in combining the cut through panels of the pedestal base, which is finished in a rich multi-layer process of textured marble-look sage and crème tones. Accents of distressed metallic gold emphasize the elegance of this outstanding piece.

The Bastille's elegant carved medallions in the front, along with the uniform warm earthy finish complements the table allowing for the simple, comfortable and durable dining chairs. The chairs are completed with a flat tape of the same performance fabric highlighting hand applied industrial nails.

SKU: COL-CAL | **Categories:** [Dining](#), [Dining Tables](#), [In Stock](#), [NEW](#) |
