

PILAR COLLECTION

Based on country living inspired aesthetics with today's lifestyles, we have created the Pilar Collection. This is a well-balanced and proportioned dining set that includes a reclaimed looking finish on solid hardwoods for a table that has both lines and tones of a Farm-kitchen style.

Woven vegetal tanned hard leather in black tones create stylish, current and durable comfortable chairs. The highly intrinsic design of the Antigua Buffet, with its hand carved details, multi tone finish on raw wood and brass accents juxtapose the simplicity of the table to achieve this very unique and original dining room grouping.

To start off this series of dining vignettes, we present our Mission Collection that features an iconic Santa Barbara design style.
