

MICHELLE COLLECTION

Placing our Michelle Buffet as a starting point for this very elegant and refined setting, we have created a Dining Room environment that is destined to those that appreciate an elevated experience at their home.

With an eclectic combination of mid-century inspired chairs covered in a sand-colored velvet, the contrast of the pedestal oval table finished in a distressed black tone with underlines of subtle grey, plays a balanced assortment of tones accented by the metallic detail that frame the doors as well as the edge of the tabletop.
