SOFA MENDOCINO

This petite yet intricately carved statement piece is perfect for bedrooms, living rooms and even entryways. The casual nature of the arm is both elegant and undefined which can ultimately be the most inviting characteristic in a sofa. The impactful hand carved wooden base is of the Spanish influence. This playfully compliments the feminine shape of the frame. The Mendocino shown here is a combination of leather, textured solid and a linen stripe; the Mendocino would look beautiful in solid or all in leather.
